## Art and Science of Love (ASL) Workshop Registration

**Welcome!** You recognized the need for psycho-educational training and then you obtained it! Learning new skills is a very rewarding experience. Congratulations on putting the time, money and energy into finding happiness and contentment with each other. Part of the registration process is a brief telephone consultation with both participants to answer possible questions and clarify expectations.

**Workshop Participants Questionnaire: Download file, fill out form, save and email the completed form to me. I will contact you.**
